

### Emily 428-61 – rocking chair

The Emily Rocker features a durable spring steel rocking mechanism, completely concealed under the seat that provides a gentle and pleasant rocking motion. The back is connected to the seat by means of two concealed spring steel J-bars that provide additional flexibility to the back. The light scale wood frame is available in a wide palette of wood finishes, and is protected by a bleach resistant top coat. Upholstered or urethane arm caps are optional.
