Kangaroo 623-10M-650 – Bariatric motorized lift recliner

The Matteo motorized Bariatric recliner features a motorized mechanism with infinite reclined positions and a lift feature. Its load capacity of 650 lbs is made possible by two heavy duty motors, and a sturdy steel inner frame. A very simple control wand with only two buttons makes this a very user friendly chair, easily operated by patients and staff.

Dimensions: Width 42" Depth (upright) 40" depth (fully reclined): 69"
Height 42" Arm height 42" Seat Height 18.5" Seat width 36."

Options:
